

AUS920010457US1

**REMARKS**

In a telephone call on 4/7/2004 Attorney discussed with Examiner Roswell and his supervisor the present application and the amendments submitted in response to the first Office action. Attorney emphasized that while Bates discusses a slider Bates makes no mention of objects displayed in a window and within the slider, and does not suggest that a position of an indicator for such an object is shown within the slider, nor that an appearance of the slider indicates a position of the object within the window, as per amended claims in the present application.

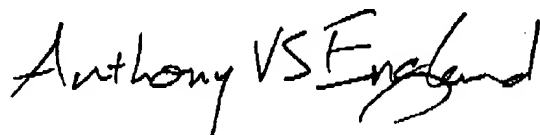

Further, in the course of the discussion it was observed that the present invention is not limited to a situation in which the displayed object must be displayed *entirely* within the window in order for the displayed appearance of the slider to include an indicator representing the object. Accordingly, Attorney agreed to submit the present supplemental amendment.

**REQUESTED ACTION**

Applicant requests that Examiner acknowledge the references that were submitted in an Information Disclosure Statement at the time of the filing of the original application.

Applicant contends that the invention as claimed in accordance with amendments submitted herein is patentably distinct, and hereby requests that Examiner grant allowance and prompt passage of the application to issuance.

Respectfully submitted,

Anthony V. S. England  
Attorney for Applicants  
Registration No. 35,129
